

**GREAT NEWS!**

## Now Available: On-Demand Loss Runs!

**Exciting News for NJSIG brokers!** NJSIG's [Broker Dashboard](#) is raising the bar with its latest feature: **on demand loss runs!** Now, brokers will have the power to access members' loss runs anytime, anywhere. The Dashboard puts the information back in your hands, enabling you to pull your members' loss runs with current data. Plus, you can easily print, save to PDF, or export to an Excel spreadsheet.

The on-demand loss runs feature offers customization, giving you the flexibility to select the coverage line, program years, and status for a personalized, member-focused report. For loss runs related to cyber, environmental, and supplemental indemnity coverages, or for any special requests, we kindly ask you to continue using the "Loss Runs Request" form available on the Dashboard.

It's time to celebrate this new feature and experience unparalleled convenience in managing members' needs!

## Additional Broker Dashboard Enhancements and Reminders:

NJSIG continues to make enhancements to our Broker Dashboard for a more user-friendly experience. We have moved all menu items to the navigation on the left of the screen and grouped all loss run related items together. The drop-down menu on the top right of the screen now only includes "Specimen Policies."

Also, please do not forget that NJSIG has created an exciting new Member Report Card tool to highlight individual members' savings and successes! These report cards are tailored for individual members and are available in the navigation on the left-hand side.

Report cards provide an up-to-date snapshot with **live data** year-over-year focusing on:

- Workers' compensation savings as compared to NJCRIB rates
- Safety Grant amounts distributed to date
- COVID-19 return amounts distributed to date
- Surplus return amounts distributed to date
- Loss ratios

If you need any assistance navigating the Broker Dashboard, please contact your Member Services Representative.

## Reporting a Cyber Incident

Email Beazley Breach Response: [bbr.claims@beazley.com](mailto:bbr.claims@beazley.com)

In light of the increasing importance of cybersecurity, NJSIG wants to ensure all members are well-equipped to handle any cyber incidents that may arise. If you are covered by NJSIG's cyber liability insurance, it's crucial to understand the proper protocol for reporting incidents.

Beazley Breach Response is our trusted partner for cyber incident management. You must report any cyber or privacy incidents directly to them via email at [bbr.claims@beazley.com](mailto:bbr.claims@beazley.com). You may also call their 24-hour hotline at 866-567-8570, however, we strongly recommend using email for reporting as it allows for a more quick and efficient response.

After reporting to Beazley, please also send a notification of the filing to NJSIG at [froi@njsig.org](mailto:froi@njsig.org).
