Issue: #44

Direct Billing Invoice Update

NJSIG wants to help ease the transition to Direct Billing for our members, which will be effective July 1, 2014. We have created a tutorial that will give a better understanding on how to read the new invoices.

As always, we will request that clients/members pay the amount due from NJSIG's invoice and not off of the quote provided. If your district's Board of Education mandates that you pay off of the quote, and there are immaterial premium differences between the quote and the invoice, we will accept the lower of the two premiums. This on occasion happens due to rounding of premiums between our two systems.

If you have any questions, please contact your Member Services Rep.
