

We would like to introduce NJSIG's **NEW** Incident Reporting Program, which we designed to help our members put students in direct contact with the most appropriate resources available to keep them safe. NJSIG has discontinued its existing relationship with WeTip in favor of this more customized approach.

We have created several poster options that are tailored to each county and come pre-loaded with emergency contact information, essential hotlines and helplines, and each county's anonymous crime reporting tool. We also have several customizable poster options where you can: add contact information for your school's anti-bullying coordinator, add your school's anonymous HIB reporting procedure, or add any other content that makes sense for your school.
