Questions regarding the RFQ and Answers

May 29, 2020

Question 1: Submit one paper copy, clearly marked as “COPY,” plus an original electronic copy, clearly marked as “ORIGINAL,” via NJSIG’s website.

An electronic copy of the original will not have notary embossing visible on the PDF nor would it still be an original. Would you prefer that the embossed original be sent to your office and the copy uploaded?

In the recent past, originals were sent to the office and a copy was uploaded.

Answer: The electronic version should be the original, and should bear a marking designating it as the original. The physical version that is sent to NJSIG’s office should be printed from the electronic original version, and should bear a marking designating it as a copy.
