1 Information for proposers

1.1 Purpose and intent

The New Jersey Schools Insurance Group (“NJSIG”) is seeking proposals from qualified organizations to provide document management software and services. Your organization is invited to submit a proposal.

This solicitation is conducted in a fair and open process in accordance with the requirements for competitive contracting under the Public School Contracts Law, N.J.S.A. 18A:18A-1, et seq. This solicitation is specifically seeking proposals from qualified organizations that desire to provide document management software and services for NJSIG, within the Scope of Work described below.

1.2 Organizational background

NJSIG is a school board insurance group, also known as an intergovernmental risk pool, established in accordance with P.L. 1983, c. 108, that provides insurance coverage and risk management services to member school districts.

The concept of pooling is one whereby public entities can join together to provide protection from risks on a group basis. As a school board insurance group, NJSIG is governed by a Board of Trustees which is comprised of school board members, superintendents and business administrators from NJSIG member districts.

By joining NJSIG, members collectively attain benefits not possible individually and pool their premiums into a common fund to be used for the benefit of all member districts. NJSIG is comprised of approximately four hundred boards of education and charter school districts, and offers members a cost-effective method of obtaining coverage for the following lines: workers’ compensation, general liability, automobile liability, excess liability, property, error and omissions, bonds, crime, electronic data processing, environmental liability, equipment breakdown, and auto physical damage coverage. NJSIG provides claims administration, underwriting and loss control services for members.

1.3 Background for the requested proposal

NJSIG has approximately seventy-five (75) full-time employees. NJSIG's current document management system, ImageRight from Vertafore, has approximately thirteen million files, totaling approximately six hundred gigabytes in size, with a SQL database size of approximately forty-four gigabytes. NJSIG utilizes eighteen active released workflows for all departments and drawers.

1.4 RFP objective

NJSIG's objective with this RFP is to identify an organization to provide document management software and services.

1.5 Scope of work

In accomplishing its work, NJSIG requires assistance from an experienced document management software and service provider that is capable of providing the following:

- The proposer's software and services must be compatible with and be able to integrate with the Microsoft Office Suite of products including Outlook, Zetafax, Right Fax, Origami Risk, Oracle PeopleSoft and David Corporation Navrisk.
 - This requirement is to allow for both ease of use in saving documents to the document management system, as well as ease of retrieval in accessing stored documents from the above-referenced software via resource location links.
- The proposer's software and services must be capable of performing optical character recognition scanning on both existing and new documents.
- The proposer's software and services must provide the ability to preserve the file format (.jpeg, .gif, .doc, .docx, .xls, .xlsx, .pdf) of a document in its native format or convert it to a scanned file type of a .tiff or similar file type.
- The proposer's software and services must be capable of effectively and efficiently scaling.
- The proposer must provide a complete list of hardware, software and resources needed for successful implementation, and detail what resources are required

for self-hosting versus provider proposer hosting. The proposer must specify whether proprietary hardware is required for any services.

- The proposer's software and services must be capable of adapting to diverse workflows that differ by department, and include a task assignment and management feature. The workflow tasks must be reportable in the active state and historical.
- The proposer's software and services must provide a high level of operational security with granular user security access controls and auditing at file, folder, document and page levels.
- The proposer's software must have purging capabilities that provide a purge history.
- The proposer's software must have search capabilities using OCR or other similar tools.
- The proposer's software must have file, folder and document copy capabilities that can be converted to .pdf format or burned to disk. An imbedded viewer must be available for burned copies.
- The proposer must have available 24 hour, 7 days a week technical support. Core support between 7:00 a.m. and 6:30 p.m. eastern time is imperative.

All proposers must complete and submit with the proposal the technical specification document "NJSIG document management system checklist."

1.6 Questions regarding the requested proposal

NJSIG will accept questions and inquiries from all potential proposers electronically via its website. Questions should be directly tied to the RFP and asked in consecutive order, from beginning to end, following the organization of the RFP. Each question should begin by referencing the RFP page number and section number to which it relates. Proposers are not to contact NJSIG personnel directly, in person, by

telephone or by email, concerning this RFP. The cut-off date for electronic questions and inquiries relating to this RFP is indicated on the cover sheet. Any questions received after that date will not be accepted. Answers to questions submitted regarding this RFP, if any, will be posted on the NJSIG website on the date on the cover sheet.

Any proposer that requires a custom questionnaire be completed by NJSIG before submitting a proposal should submit their questionnaire to rfp@njsig.org. The cut-off date for the submission of a questionnaire relating to this RFP is indicated on the cover sheet. Any questionnaires received after that date will not be accepted. Answers to questionnaires relating to this RFP, if any, will be returned to the proposer that submitted the questionnaire on the date indicated on the cover sheet.

1.7 Addenda

In the event that it becomes necessary to clarify or revise this RFP, such clarification or revision will be by addendum. Any addendum to this RFP will become part of this RFP and part of any contract awarded as a result of this RFP. All RFP addenda will be issued on the NJSIG web site, and notification will be published.

There are no designated dates for release of addenda. Therefore interested proposers should check the NJSIG website on a daily basis from time of RFP issuance through proposal opening. In the event that an addendum is published after the receipt of a proposal, the proposer will be notified via a method of delivery that provides certification of delivery.

1.8 Proposer responsibility

The proposer assumes sole responsibility for the complete effort required in submitting a proposal in response to this RFP. No special consideration will be given after proposals are opened because of a proposer's failure to be knowledgeable as to all of the requirements of this RFP.

1.9 Cost liability

NJSIG assumes no responsibility and bears no liability for costs incurred by a proposer in the preparation and submittal of a proposal in response to this RFP.

1.10 Contents of proposal

Subsequent to proposal opening, all information submitted by proposers in response to the proposal solicitation is considered public information, except as may be exempted from public disclosure by the Open Public Records Act, N.J.S.A. 47:1A-1, et seq., and the common law. Because NJSIG proposes to negotiate and/or pursue a Best and Final Offer, proposals will not be made public until the Notice of Award is issued.

A proposer may designate specific information as not subject to disclosure when the proposer has a good faith legal/factual basis for such assertion. NJSIG reserves the right to make the determination and will advise the proposer accordingly. The location in the proposal of any such designation must be clearly stated in a cover letter. NJSIG will not honor any attempt by a proposer either to designate its entire proposal as proprietary and/or to claim copyright protection for its entire proposal.

By submitting a proposal in response to this RFP, the proposer waives any claims of copyright protection set forth within the manufacturer's price list and/or catalogs. The price lists and/or catalogs must be accessible to NJSIG cooperative purchasing partners and thus have to be made public to allow all eligible purchasing entities access to the pricing information. All proposals, with the exception of information determined by NJSIG or the Court to be proprietary, are available for public inspection after the Notice of Award is issued. At such time, interested parties can make an appointment with NJSIG to inspect proposals received in response to this RFP.

1.11 Price alteration

Proposal prices must be typed or written in ink. Any price change must be initialed. Failure to initial price changes shall preclude a contract award from being made to the proposer.

1.12 Proposal errors

A proposer may request that its proposal be withdrawn prior to proposal opening. Such request must be made, in writing, to the Director. If the request is granted, the proposer may submit a revised proposal as long as the proposal is received prior to the announced date and time for proposal opening and at the place specified.

If, after proposal opening but before contract award, a proposer discovers an error in its proposal, the proposer may make written request to the Director for authorization to withdraw its proposal from consideration for award. Evidence of the proposer's good faith in making this request shall be used in making the determination. The factors that will be considered are that the mistake is so significant that to enforce the contract resulting from the proposal would be unconscionable; that the mistake relates to a material feature of the contract; that the mistake occurred notwithstanding the proposer's exercise of reasonable care; and that NJSIG will not be significantly prejudiced by granting the withdrawal of the proposal.

All proposal withdrawal requests must include the proposal identification number and the final proposal opening date and sent to the address listed under "Method of submission of proposal."

If during a proposal evaluation process, an obvious pricing error made by a potential contract awardee is found, the Director shall issue written notice to the proposer. The proposer will have five days after receipt of the notice to confirm its pricing. If the proposer fails to respond, its proposal shall be considered withdrawn, and no further consideration shall be given it. If it is discovered that there is an arithmetic disparity between the unit price and the total extended price, the unit price shall prevail. If there is any other ambiguity in the pricing other than a disparity between the unit price and extended price and the proposer's intention is not readily discernible from other parts of the proposal, the Director may seek clarification from the proposer to ascertain the true intent of the proposal.

1.13 Joint venture

If a joint venture is submitting a proposal, the agreement between the parties relating to such joint venture must be submitted with the joint venture's proposal. Authorized signatories from each party comprising the joint venture must sign the proposal. A separate Ownership Disclosure Form, Disclosure of Investigations and Actions Involving Proposer, Affirmative Action Employee Information Report, and Business Registration or Interim Registration must be supplied for each party to a joint venture.
